ABOUT ME

I believe every challenge is an opportunity to grow and every setback is a lesson for improvement. I am passionate, resilient, and committed to continuous learning. I enjoy exploring new ideas, pushing boundaries, and developing skills that create meaningful impact. My goal is to keep evolving while contributing positively to the world around me.

PROJECTS

Student Management System

- Created a Python program to store and manage student records.Users can add, update, and delete student information.The program maintains data in a structured format.This project demonstrates basic database-like operations using Python.Tools Used: Python, File Handling / SQLite, VS Code

URL Status Checker

- Developed a Python tool to check if websites are active.The program sends HTTP requests and verifies response codes.It helps monitor website availability.This project demonstrates networking concepts in Python. Tools Used: Python, Requests Library

Port Scanner

- Developed a simple port scanner using Python.The program scans open ports on a target system.It helps identify network vulnerabilities.This project demonstrates basic cybersecurity and networking concepts. Tools Used: Python, Socket Library
-

EDUCATION

B.Tech (Cyber security)

Dhanalakshmi Srinivasan engineering College
2024-2027 CGPA - 7.5

Diploma - Dhanalakshmi Srinivasan polytechnic college
2021-2024 percentage - 72%

SSLC - Sowma Public School
2017-2018 percentage - 45%

TECHNICAL SKILLS

- Programming in Java
 - Programming in C++
 - Networking
 - Web development basics
 - Leader Shipp
-

Languages

- Tamil
- English

Hobbies

- Waching movies
- Playing mobile game
- Forming

Technical Interests

- Penetration testing
- Digital Forensics
- Network Security
- Web Application Security
- Web design
